Claim Rejections - 35 USC § 101

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3 and 6-12 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Following the Court's decision in *Bilski* (2008), the nonstatutory rejection is maintained. A method claim must meet a specialized limited meaning to qualify as a patent eligible process. The claims must be tied to particular machine or transform a particular article in an significant way. One example of an insignificant way is data gathering or outputting.

Here, "receiving an input from a donor" is insignificant data gathering as it can read on a phone call or the like.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
